Step-2: Follow the instruction to **submit the full paper in the acceptance mail**.

WEB OF SCIENCE™

This AISC 2022 conference will provide an excellent international forum for sharing knowledge and results in the theory and applications of Machine Learning, Deep Learning, Computer Networks, the Internet of Things, and Security. Original papers are invited on Networks, the Internet of Things, and security. The AISC 2022 conference session aims to provide a platform for researchers and will provide an excellent international forum for sharing knowledge and results in the theory and applications of Machine Learning and Applications practitioners from academia and industry to meet and share cutting-edge development in the field.

Aim and Scope

The recent booming development of web-based technologies and mobile applications has facilitated a dramatic growth in the implementation of new techniques. Enabling a smart life has become an essential topic of research, being in demand. Therefore, a special session on “Converging Technology and its Applications” will focus on different innovations and interdisciplinary research work in the area of converging technologies. Technological convergence allows the amalgamation of varied unrelated technologies into one device and it can be observed in various fields. Media convergence, Industry Convergence, and Cultural Convergence are some of the significant examples of Converging Technologies”.

The special session will not only take stock of trends and developments in the globally competitive environment but will also provide future directions to young researchers and practitioners. The special session would be of immense benefit to Researchers, Academicians, Industry experts, and participants from Technical Institutes, R & D Organizations, and students working in the field of converging technology and its applications. Therefore, the topics of interest include, but are not limited to the following:

Topics of interest include, but are not limited to, the following:

Machine Learning and Applications

- ? Bio-Inspired Computing
- ? Big Data Analytics
- ? Soft Computing
- ? Project Management
- ? Cloud Computing
- ? IoT Applications
- ? DNA Computing
- ? Green Computing
- ? Bio-Informatics
- ? Disaster Management
- ? Intelligent Systems
- ? Security, Challenges and Future Trends
